

Leading Lutheran Identity

The Leading Lutheran Identity workshops have been collaboratively developed with LEA, LESNW, LEQ & LEVNT to provide meaningful professional development for leaders in Lutheran education, as they seek to provide a safe and supportive context in which staff, students and the wider school/centre community can reflect on their experiences of the world and on their own beliefs and spirituality. This workshop can also contribute to leadership accreditation.

These free sessions will occur **from 8.30am-3.30pm** and are open to all current and aspirant leaders. To select the session you wish to attend and register, click [here](#) or use the QR code below
