# LEADING VOCATIONAL PRACTICES

## *Leading Excellence in Learning*

Excellence in learning is more than high expectations and outcomes - it is about growing learners who are compassionate, purposeful, adventurous and relational so they embrace the future with confidence.

In this interactive workshop, participants will:

- Explore data from their learning community to inform practice, ensuring decisions improve learner growth and engagement.
- Develop a clear, compelling 'why' that aligns with Free to Flourish and strengthens shared purpose.
- Hear stories from learning communities intentionally cultivating excellence in learning.
- Identify the Capabilities required to lead this work meaningfully and sustainably within your context.

Join us to be encouraged, equipped and energised for this important work!
