LEADERSHIP LAB 1.0

FOUNDATIONS FOR LEADERSHIP GROWTH

Leadership today requires more than technical expertise. It calls for the capacity to navigate complexity, foster meaningful relationships and cultivate cultures where people and ideas can flourish.

Leadership Lab 1.0 introduces participants to not only the *what* but importantly the *how* of leadership, grounded in Growing Deep and informed by Compassionate Systems tools and practices. Through reflection, dialogue and collaborative learning, participants develop greater awareness of themselves, others and the wider systems in which they lead.

Growing leadership through self, relational and system awareness.

IN THIS PROGRAM, YOU WILL:

- deepen self, relational and systems awareness
- strengthen leadership practices grounded in Growing Deep
- build capability for innovation and improvement
- cultivate a community of practice characterised by trust and shared learning
